We meet many trainers who are open and excited to try our line of supplements. We often meet trainers who are doing well. Many still give us a try while others don't want to change, and we get it, we don't ask anybody to change anything when they're doing well so we just stop by and say hello, maybe give them some samples, so whenever they are interested in trying something new we're here for them.

These are some of the things that trainers are saying who have tried our products:

Statements from multiple trainers

- "I tried those **Thump Free** samples on a bad thumper (on a very hot day) and it worked! No thumps! Hook me up with more before his next race on *****."
- Text message from trainer: Trainer: "Can you bring me 1 **Calmese**, Please." Us: "When do you want it, later in the week when I come out or sooner?" Trainer: "ASAP, thank you." We drop it off the next day. Two days later we visit the trainer in the barn. Trainer says: "It is working already, I see a difference in the horse and he's in soon, thank you!"
- "I gave the **Hemeguard** to a horse who had a lot of mucous because I did not want to give him antibiotics. Now the mucous is gone."
- "I give **Hemeguard** to all my horses because it helps with any kind of issues due to dust or mold from the air, the barn, the hay, the straw...."
- "I had a sick horse come in so I sent him out to the farm, put him on the **Ulcer's Aid** and he started eating and improving quickly."
- "My filly has started eating up everything, she's working well, coming out of the works good and not backing off her feed while on the **Ulcer's Aid**."
- "I used the **Energea** on my horse that ties up, he ran well and came back great!"
- "I have a horse who doesn't like the heat, he doesn't get the thumps but I'm worried that he could, he's on the **Thump Free** and handles the heat fine."
- One groom said she was astonished when a fussy filly started eating after being on the **Ulcer's Aid** for less than a week.
- "Every day when I come in my horse is carrying on in the stall, look how quiet he is now after being on the **Calmese**." (Horse standing calmly in the stall.)
- "My horse comes running over to the webbing to receive her **Ulcer's Aid**"
- About a horse started on **Supreme** and **Hemeguard** : Trainer: "My horse is finishing stronger every race and going a distance I never thought he would!"
- Text message: Trainer: "I will need three more **Ulcer's Aid**, I don't want to run out, please drop it off this week. I won't be there, check will be in the office!" Us: "Will do, Thank you!"
- "All my horses are on **Calm-ESE**, I never want to run out!"
- Text message: "Hello, could you bring me another box of **Thump Free** and **Energea** tomorrow!"
- Text message: "Can you bring me 12 **Energea**, Please!"
- Text message: Trainer: "Are you still here at the track? Do you have any **Equi No Bleed**?" Us: I have one left" Trainer: "how far away r u?" Us: 15 minutes, we can drop it off" Trainer: "Thank you!"
- About a filly with hair loss, poor appetite and poor attitude who was started on **Supreme** and **Ulcer's Aid**. Trainer: "The fillies attitude is much better and her coat is growing back in and she's eating well."
- Trainer: "My horse ran super, record time and won big! Don't tell anyone what supplements I used and give away the secret" Us: No worries, it's just between us!"
